EXAMEN KEUZEDEEL

BASIS PROGRAMMEREN VAN GAMES

K0788

BIJLAGE 1 VOOR DE KANDIDAAT

GAME DESIGN DOCUMENT

Dit examen is ontwikkeld door Bob van den Berge, coach bij de Bit Academy, en Joey Schmitz, docent Software Development bij ROC van Flevoland. Onze dank gaat uit naar Lincy Ellermeijer, game developer en docent Game Development bij de HvA, voor haar hulp bij het ontwikkelen van het theoretische deel van de lesstof.

Project Concept

1 Player Control

You control a *Knight* in this *2D side view* game

where *You need to survive* makes the player *And fight using a sword*

2 Basic Gameplay

During the game, *Another Knight will appear controlled by a second player* appear from *He spawn from the opposite side of the map*

and the goal of the game is to *goal of the game to defeat your opponent by getting rid of all 3 of his lives*

3 Sound & Effects

There will be sound effects *There will be sound effects when attacking/ swinging your sword* and particle effects *Atmospheric particle effects for lighting*

[*optional*] There will also be *Animations for the Knights When he moves, jumps and attack*

4 Gameplay Mechanics

As the game progresses, *There will be moving object you can parkour on* making it *Possible to run away from your opponent*

[*optional*] There will also be *description of any other gameplay mechanic(s) and their effect on the game.*

5 User Interface

The *Health points* will *decrease* whenever *You get hit by a attack*

At the start of the game, the title *DUEL* will appear and the game will end when *A player loses all 3 lives and shows a restart screen*

6 **Other Features**	*Any other notes about the project that you don't feel were addressed in the above.*
